

# Final Assignment

---

Sixth meeting, zoom, Friday 20.11.20, 10:00

- 4 member, all present:
  - Ingrid
  - Kenneth
  - Astrid
  - Runa

---

Meeting contents:

*Agenda: Testing the website on all browsers.*

- Testing conducted
  - The contact sheet looks strange on smartphones. On the iPhone the button looks different due to the iPhone overriding the code. On Samsung the contact sheet is skewed. Solved by adding code to force the iPhone to render.
  - Code works well on all browsers except IE.
    - Cause 1 = variables. Solved by removing variables and defining each element.
    - Cause 2 = pictures getting stretched. Solved by setting an individual code for IE on pictures.
- Contact sheet made larger on phone and pad screens.
- Footnotes enlarged.
- Links to source pages reorganized to show all links on every source page.
- Group evaluation form filled out together.

- Cleaned up the CSS

**This was the last meeting.**
