 - Runa
-

Meeting contents:

- New app design was discussed and revised.
- An issue with footnotes vs source in parentheses was reviewed.
- The list of changes was discussed and points added.

List of changes to the website needed:

- Alt-text on all pictures
 - Change picture spacing on “about us”-page
 - Tailor every page for phone size
 - The minutes should open in new tab not download
 - Add home-button
 - Recreate the solution page to properly present the app, and not look like an article
 - Change the pictures to improve the story-telling
- Usability test questions written:
 - What do you think this is?
 - How did you find the amount of text?

What did you think about the navigation?

How did you find the overall look and design?

What did you think about the “problem” and “solution” pages?

- Date for next meeting: Today, Thursday 19.11.20, 15:30
-

To do for the next meeting:

- Find new pictures (trains, trainstation, app)
- Make the discussed changes to the app
- Create suggestions for the solution-page
- Add footnotes
- Change the code to stop the minutes from downloading.
- **Conduct usability test**
